

NFL FLAG-In-School

Arizona Cardinals Market Report

The NFL FLAG-In-School Program started in 2014

- Developed by GENYOUth as a solution to the physical inactivity crisis
- Supports **Physical Education (PE) Teachers**
- Reaches a new population of potential players, namely **girls and young children who have never played football!**

The program provides NFL FLAG-In-Schools Kits, valued at \$410:

- Equipment: To replace outdated or non-existing equipment
- Curriculum: [High-quality resource developed by SHAPE America](#)
- Watch NFL Legend Lorenzo Alexander walk through [FIS drills](#)

NFL FLAG-In-School receives high ratings on almost every measure and is especially strong on:

- Providing an opportunity for competition
- Helping kids learn new skills and the rules of football
- Providing an easy way for kids to engage in football and feel accomplished

"Every grade level from K- 6th grade have the opportunity to learn how to use the flags and are taught a variety of games and activities and exercises that use the flags to their benefit. The flags also helped increase participation during our two schoolwide wellness weeks at Hendricks and the teachers noticed a large difference in the opportunities given to all students due to having more flags to use during lunchtime activities."
